- The class discussions were thorough, however, i think the class would have liked more of an opened round class discussion setting instead of a strict led discussion.
- The class was very intersting and insightful.I feel like I gained a lot of knowledge from it. The instructor did very well, but I think there could have been a little more variety. Every day felt like the same routine. Read,talk,read, talk etc...The only work we every turned in was essays so that was the only feedback we really recieved.
- Great in everything just needs to work a little more on relating all the books together sometimes.
- Dr. Pearson did really well. He made class discussions interesting so I wanted to participate. Our prompts for papers were well written and he gave feedback on our papers.
- Excellent Instructor.
- A very engaging and enthusiastic instructor. The only thing I would mention is that there needs to be a point where neutrality is lifted and the opinions of the instructor are infused into the discussion, otherwise, the discussion sometimes falls short of where it could go.
